

**Program Objectives:**

- This qualification reflects the role of workers in the community and/or residential setting who follow an individualised plan to provide person-centred support to people who may require support due to ageing, disability or some other reason. Work involves using discretion and judgement in relation to individual support as well as taking responsibility for own outputs. Workers have a range of factual, technical and procedural knowledge, as well as some theoretical knowledge of the concepts and practices required to provide person-centred support.

**The Key Features of this Program are:**

- This program is designed to provide training for people to enhance their continued education and employment prospects through the development of skills and knowledge.
- Students have access to hands on training in a simulated environment, well preparing them for success and alleviating any stress associated to using equipment before entering the workforce.
- This program enables students to gain practical experience working in an Aged care environment. This provides opportunities for students to consolidate their learning.

**This course prepares you to work in job roles such as;**

- Aged Care Support Workers
- Disability support Workers
- Community support Workers

**The entry requirements for this program are:**

- English proficiency demonstration of bandwidth level 7-9

**The training is conducted by;**

- Classroom face to face sessions lead by a trainer
- Student lead learning – reading learning material
